Hi TC,

When I took the reclamation application to El Paso County recorder's office they stated that they don't record the document but would be keeping it on file. There was not a filing fee or a receipt but they did stamp the original application (and their filed copy) with the El Paso County Recorder's seal. Only one of the copies I sent to your office has the seal as proof of filing at the El Paso County Recorder's office (on the same form as the notary seal.)

Thanks,
Jean Cowman
