**Re: Cresson Project; DRMS File No. M-1980-244;
Technical Revision (TR-68) Approval**

Dear Mr. Dubois:

On October 2, 2013 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on September 18, 2013, addressing the following:

TR Submittal - Extended Process Solution Enhancement Liner System Construction.

The terms of the Technical Revision No. 68 approved by the Division are hereby incorporated into Permit No. M-1980-244. All other conditions and requirements of Permit No. M-1980-244 remain in full force and effect.

The performance bond currently held by the Division is \$130,143,873.21. The Division has reviewed this change for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability. Therefore, the surplus warranty remains at \$1,748,652.21. The last revision requiring adjustment to CC&V's surplus warranty was TR-67.

If you have any questions, please contact me.

Sincerely,

A handwritten signature in blue ink that reads "Timothy A. Cazier".

Timothy A. Cazier, P.E.
Environmental Protection Specialist

cc: Tom Kaldenbach, DRMS
Timm Comer, CC&V
