Re: Revenue Mine, Permit M-2012-032, Technical Revision TR-01, Approval of 14-Day Extension

Dear Mr. Lewicki,

The Division received your recent request for a 14-day extension for the technical revision named above. Reasons given for the request were that additional time was needed to prepare and submit the technical responses to the issues listed in our adequacy review letter. The Division has approved your request.

The Division's current decision date was set for October 7, 2013. It has now been extended to October 21, 2013. Please provide your response materials in advance of that date, to allow the Division adequate time to review them. If additional time is needed to prepare and submit the responses, an extension of the decision date may be requested.

As usual please provide two complete sets of the response materials. As a reminder, all maps and diagrams must be signed and dated. The materials should be mailed to me, at the address below.

If there are questions please contact me at the Division's Durango Field Office: 691 CR 233, Room A-2, Durango, CO 81301; telephone 970-247-5193.

Sincerely,

Bob Oswald
Environmental Protection Specialist
