Re: Revenue Mine, Permit M-2012-032, Technical Revision TR-01, Extension of Decision Date

Dear Mr. Lewicki,

On October 8, 2013, the Division received the package you sent, containing the adequacy response materials for the technical revision named above. The narratives, maps and diagrams comprising the adequacy response package were not only voluminous but included numerous modifications and new materials. As such, this office has not finished its review of the technical revision and requires more time to complete the review.

The Division's current decision date was set for October 21, 2013. Considering only the time required to review these adequacy responses, this office must extend the decision date by two weeks. It has now been extended to November 4, 2013.

Before the decision date, I will contact the operator to schedule an inspection of the site.

If there are questions please contact me at the Division's Durango Field Office: 691 CR 233, Room A-2, Durango, CO 81301; telephone 970-247-5193.

Sincerely,

Bob Oswald  
Environmental Protection Specialist
