Dear Mr. Coram,

The four Technical Revisions (TRs) listed above are currently under review by the Division, and each of them is presently not adequate for approval. Today is the Division's decision date for each of the TRs.

The Division has received your request for an extension of the decision date for each of the TRs listed above. You requested an additional 30 days, in order to have sufficient time to prepare and submit the adequacy response materials. The Division finds this request reasonable, and has approved your request.

The Division has reset the decision date to December 6, 2013. Your adequacy response materials should be submitted a few days in advance of the decision date to allow time for this office to review them.

We request that you please provide two complete sets of the response materials, which includes all maps and text. As a reminder, all maps and diagrams must be signed and dated. Please mail all hard copy sets of response materials to the Division's main office in Denver at 1313 Sherman St., Room 215, Denver, CO 80203.

If there are questions, please contact me at the Division's Durango Field Office: telephone 970-247-5193, or by e-mail at bob.oswald@state.co.us.

Sincerely,

Bob Oswald
