

COLORADO DIVISION OF RECLAMATION, MINING AND SAFETY
MINERALS PROGRAM INSPECTION REPORT
PHONE: (303) 866-3567

The Division of Reclamation, Mining and Safety has conducted an inspection of the mining operation noted below. This report documents observations concerning compliance with the terms of the permit and applicable rules and regulations of the Mined Land Reclamation Board.

MINE NAME: Upland Gravel	MINE/PROSPECTING ID#: M-2001-088	MINERAL: Gravel and sand	COUNTY: Mesa
INSPECTION TYPE: Monitoring	INSPECTOR(S): Travis H. Marshall	INSP. DATE: November 21, 2013	INSP. TIME: 08:45
OPERATOR: Gary Rinderle Construction, Inc.	OPERATOR REPRESENTATIVE: Jason Rinderle	TYPE OF OPERATION: 112c - Construction Regular Operation	

REASON FOR INSPECTION: Normal I&E Program	BOND CALCULATION TYPE: Complete Bond	BOND AMOUNT: \$58,558.00
DATE OF COMPLAINT: NA	POST INSP. CONTACTS: None	JOINT INSP. AGENCY: None
WEATHER: Raining	INSPECTOR'S SIGNATURE: 	SIGNATURE DATE: November 26, 2013

GENERAL INSPECTION TOPICS

This list identifies the environmental and permit parameters inspected and gives a categorical evaluation of each. No problems or possible violations were noted during the inspection. The mine operation was found to be in full compliance with Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for the Extraction of Construction Materials and/or for Hard Rock, Metal and Designated Mining Operations. Any person engaged in any mining operation shall notify the office of any failure or imminent failure, as soon as reasonably practicable after such person has knowledge of such condition or of any impoundment, embankment, or slope that poses a reasonable potential for danger to any persons or property or to the environment; or any environmental protection facility designed to contain or control chemicals or waste which are acid or toxic-forming, as identified in the permit.

Y = Inspected and found in compliance / N = Not inspected / NA = Not applicable to this operation / PB = Problem cited / PV = Possible violation cited

OBSERVATIONS

This inspection was conducted as part of the normal monitoring program established by the Colorado Division of Reclamation, Mining and Safety (Division). The Upland Gravel pit is located east of 35 Road on East Orchard Mesa approximately 10 miles south east of Grand Junction Colorado. The site is a 112c construction materials operation that includes 29.04 acres with a maximum allowed disturbance of 8 acres. Jason Rinderle of Gary Rinderle Construction, Inc. was present during the inspection.

The required mine identification sign and boundary markers were in place and in compliance with Rule 3.1.12. The permit boundary markers were comprised of fences and fence posts around the perimeter of the mine.

The fuel tanks observed at the site were placed in livestock tanks that provided adequate secondary containment in the event of a leaking container.

Two draws that were partially filled in were observed along the southern extent of the disturbed area within the permit boundary. It appears that fill material placed in the draws have not negatively impacted the wetland/riparian area below. It is advised that the operator avoids future filling of draws and drainages at this site to prevent possible negative future impacts to the adjacent wetland/riparian area.

Imported materials including asphalt, concrete, various soils and non hazardous waste material was observed in the the permit area. If the operator wishes to import materials such as asphalt, recycled concrete, etc. the operator must submit a signed and notarized request per the requirements of Rule 3.1.5(9) or remove the material from the permit area and provide photo-documentation that proves the material was removed no later than December 31, 2013. If a request to import materials or the removal of the imported materials is not submitted by December 31, 2013 enforcement action will be initiated.

A required routine reclamation cost update will be conducted and sent under separate cover.

If you need more information regarding this inspection report please contact Travis Marshall in the DRMS Grand Junction Field Office at (970) 241-2042.
