Re: Revenue Mine Exploration, NOI number P-2011-030, Procedure for Request for Bond Release

Dear Mr. Williams,

The Division recently received the annual report for the NOI named above, which included a request for release of the bond. The Division cannot act on the release request since the submittal is not considered "complete." Specifically, it was not submitted according to the procedure described in Hard Rock and Metals Rule 4.16.1.

Please refer to the rule cited above for the complete description of the release request procedure. However, by way of explanation, these are the factors causing the submittal to be considered incomplete. The rule instructs the prospector to submit the request "by Certified Mail" and "separate from other types of communication."

The Division's brief review of the content of the release request indicates that it otherwise appears to contain the necessary information.

If you wish to pursue the release of the bond for this NOI and terminate the file, please resubmit the request according to the steps contained in Rule 4.16.1. Two copies of the request should be sent to our Denver office (address above in the letterhead). If you have questions, feel free to contact me by telephone: 970-247-5193 (or 303-866-3567 ext. 8175); or by email: bob.oswald@state.co.us.

Sincerely,

Bob Oswald
Environmental Protection Specialist
