**Re: T.H.E. Aggregate Source; DRMS File No. M-1977-193;
Technical Revision (TR-08) Approval**

Dear Mr. Diluzio:

On February 6, 2014 the Division of Reclamation, Mining and Safety (Division) approved the Technical Revision application submitted to the Division on February 3, 2014, addressing the following:

Request Technical Revision to discontinue Filing of quarterly Blast Monitoring Data.

The terms of the Technical Revision No. 8 approved by the Division are hereby incorporated into Permit No. M-1977-193. All other conditions and requirements of Permit No. M-1977-193 remain in full force and effect.

The Division has reviewed this minor change for impacts to the financial warranty and determined this revision has no impact on the reclamation plan or financial warranty. Therefore, no additional financial warranty for this Technical Revision is necessary.

If you have any questions, please contact me.

Sincerely,

A handwritten signature in blue ink that reads "Timothy A. Cazier".
