We are in the process of obtaining the required bonding capacity. Today the 10th of January 2014, we received from your Denver office a Barbara Coria, the documents that our bonding company needs to complete the bonding process. By this email we are requesting that our board hearing time be extended from February to the April Meeting. This process has been tedious due to acquiring the proper forms from the State of Colorado and information our bonding company needs. Thank you for this consideration.
