Re: Reply to TR-04

Mr. Cunningham:

Please see below the reply to your review. Most of these questions were, hopefully, adequately addressed in my previous correspondence. One other point to note: The suggested revision will not change the existing mining or reclamation plans. Neither will it result in addition affected acreage.

Respectfully,

John DeWitt  
Lincoln County  
Land Use Administrator

RE: Elmer Stone Gravel Pit; DRMS File No. M-1978-080; Technical Revision No.4-Adequacy Review

Dear Mr. DeWitt,

The Division of Reclamation, Mining and Safety (Division) received Technical Revision – 4 (TR-04) for the above referenced site on February 3, 2014. The decision date for this application is March 5, 2014. The Division has reviewed the TR-04 proposal and has the following comments.

1. Please provide an explanation of why the permit boundaries need to be redefined. Typically any change to the permit boundary will require approval of an acreage reduction or an amendment application. In addition, you must provide a map showing the proposed changes to the permit boundary.

[Please see revised map, and dialogue sent in my previous correspondence.](#)

2. Please indicate if the rotomillings and crushed concrete will be processed onsite.

[Rotomillings and crushed concrete will be processed at the county shop location, and brought to the pit site. No processing shall take place within the pit.](#)

3. Please specify the approximate volume of material that will be stockpiled at the site and specify where the stockpiles will be located.

[The maximum amount will be 600 cubic yards. The location is indicated on the revised map.](#)

This concludes the Division's preliminary adequacy review of this application. Please remember that the decision date for this application is March 5, 2014. If you are unable to provide satisfactory responses to any inadequacies prior to this date, it will be your responsibility to request an extension of time to allow for continued review of this application. If there are still unresolved issues when the decision date arrives and no extension has been requested, the application will be denied.

If you have any questions, please contact me at (303)866-3567 x8116.
