Denver, CO 80203

Dear Tyler;

RE: Walsenburg Sand and Gravel, CO.
Sand Arroyo Pit
M.L.R.B. Permit # M-1978-283

On behalf of my client Walsenburg Sand and Gravel, CO., I am requesting addition time to address the second possible problem noted in your December 2, 2013 inspection report. The corrective action suggested, to solve this problem is to file a Technical Revision that will revised the amount of maximum disturbance allowed at the mine, update the Mining Plan Map, and reclamation cost estimate, et al. Your correction date is set for March 11, 2014 but with the other items I have to do I need some additional time. Per our discussion I request an 30 day extension to Friday, April 11, 2014 to submitting the Technical Revision. I expect to have it done before then but need the time just in case another problem arises.

Thanks for your help and if you have any questions call me at 303-423-7297.

Respectfully Submitted,
Environment, Inc.

Steve
