Denver, CO 80203

RE: *Loloff Construction, Inc. – Loloff Pit – Technical Revision No. 1 Request,
File No. M-1985-112, Request for Decision Date Extension* ✓

Dear Mr. Hays,

Loloff Construction, Inc. has received the Division's adequacy review comments letters dated November 6, 2013, November 12, 2013, and January 16, 2014. As a result of the Divisions adequacy review comments, additional information was needed to be included in the Technical Revision #1 request for your approval. We have completed draft bond calculations based on a phased mining approach and wanted to discuss with you prior to submitting, Loloff Construction Inc. would like to request an extension to the current March 3, 2014 decision date for this Technical Revision request to April 1, 2014. This extension is required for Loloff Construction Inc. to submit the additional information regarding water shares and bonding requirements, and for the Division to review it.

Thank you for your consideration of this decision date extension request. Please feel free to contact me with any questions or comments.

Sincerely,

A handwritten signature in blue ink that reads "J.C. York".

J.C. York, P.E.
