**Re: Trapper Mine (Permit No. C-1981-010)
Technical Revision Application No. 112 (TR-112)
Airblast and Blast Monitoring Equipment Location Update.**

Dear Mr. Boehms:

The Division of Reclamation, Mining and Safety hereby issues notice, in accordance with Title 34, Article 33, Section 118, Paragraph 3, of the Colorado Revised Statutes, that on March 10, 2014, an application to revise coal mining operations at the Trapper Mine was considered complete for the purposes of filing. All review and comment periods as provided in the Act and the Regulations initiate from this date of filing.

Trapper is proposing to relocate the airblast and blast monitoring equipment.

The Surface coal mining operation is on land located approximately 6 miles Southwest of Craig, Colorado. The permit area is further described as follows:

Portions of Sections 1, 2, and 3, Township 5 North, Range 91 West of the 6th P.M.

Portions of Sections 30 and 31, Township 6th North, Range 90 West of the 6th P.M.

Portions of Sections 25, 26, 28, 33, 34, 35, and 36, Township 6 North, Range 91 West of the 6th P.M.

The above-mentioned tracts of land are shown on the following USGS 7.5 minute Quadrangle map(s): Castor Gulch.

The Division has interpreted 30 CFR 746.18OSM_MinePlanAction_Confirm to determine that this application as submitted does not constitute a Mining Plan Action. If the proposal is significantly changed during our review process, we will consult with you on whether a Mining Plan Action should be initiated and direct the applicant to send the revision application materials to your office for review as necessary.

Sincerely,

A handwritten signature in blue ink that reads "Andrew Z. Brown".
