1313 Sherman St., Room 215
Denver, CO 80203

DIVISION OF RECLAMATION
MINING AND SAFETY

RE: MMM Partnership Gravel Pit, Permit NO. M-2006-042

Response

Dear Mr. Russell:

Reference is made to the above mentioned project located at or near Section 34, T12N, R49W, Logan County, Colorado.

If any work requires the discharge of dredged or fill material, and any excavation associated with a dredged or fill project, either temporary or permanent in an aquatic site, which may include ephemeral and perennial streams, wetlands, lakes, ponds, drainage ditches and irrigation ditches, this office should be notified by a proponent of the project for Department of the Army permits, changes in permit requirements or jurisdictional determinations pursuant to Section 404 of the Clean Water Act.

Work in an aquatic site should be identified by the proponent of the project and be shown on a map identifying the Quarter Section, Township, Range and County, Latitude and Longitude in Decimal Degrees (example 39.55555; -104.55555) and the dimensions of work in each aquatic site. Any loss of an aquatic site may require mitigation. Mitigation requirements will be determined during the Department of the Army permitting review.

If there are any questions call **Mr. Terry McKee** of my office at **720-922-3851**.

Sincerely,

Kiel Downing
Chief, Denver Regulatory Office
