☐ Evidence of notification is attached to this NOI for USFS Land.
☐ Other proof of notice is attached to this NOI

II. MAPS & DRAWINGS

Accurate topographic base map showing the location of the proposed project must be submitted with this notice. The prospector may submit a U.S.G.S. 7.5 minute quadrangle, or similar map of adequate scale that:

- Identifies the proposed prospecting site(s) or activity areas involving surface disturbance. Activity areas include all drill holes, mud pits, excavations, trenches, adits, shafts, tunnels, rock dumps, stockpiles, impoundments and prospecting roads, and
- Includes sufficient detail to identify and locate known prospecting features and facilities that may be affected and those that are not anticipated to be affected. This includes the location of all drill holes, mud pits, excavations, trenches, adits, shafts, tunnels, rock dumps, stockpiles, impoundments and prospecting roads. Color photographs, adequately labeled (including date, orientation and location), of the prospecting site may be used to fulfill this requirement if included with the NOI submittal. I have not been on the location or public maintain yet. I am new.

III. PROJECT DESCRIPTION

- Mineral(s) and/or Resource(s) being Investigated: Aqua marine, quartz crystals, topaz
- Estimated dates of commencement and completion:
 Commencement: June 2014
 Completion: Sept 2014
- Amount of material to be extracted, moved or proposed to be moved: Not sure yet but manually doing this alone
So not very much.
- Identify the type or method of prospecting proposed and quantity (place an "X")

<input type="checkbox"/> Cuts	<input checked="" type="checkbox"/> Pits	<input type="checkbox"/> Trenches
<input type="checkbox"/> Shafts	<input type="checkbox"/> Tunnels	<input checked="" type="checkbox"/> Adits
<input type="checkbox"/> Air Drilling	<input type="checkbox"/> Fluid Drilling	<input type="checkbox"/> Drilling & Blasting

☒ only digging & removing rocks with hand tools, shovel, rock hammer and pick ax.

5. Describe proposed surface excavation or other land disturbance, including roads, pits, trenches, waste piles, drill pads and collar areas of underground workings, ponds, etc...

Have not done any land disturbance as I have not yet started. I plan on beginning in June 2014.
May create some small pits and move rocks off incline/decline

6. **Proposed Disturbance** (approximate) Describe the proposed drilling to be conducted, including anticipated number of holes, diameter, depth, location, etc... Submit additional pages if necessary:

A. Drill Pads: Quantity _____ Average Width _____ (ft) Average Length _____ (ft)

B. Drill Holes: Quantity _____ Depth _____ (ft) Diameter _____ (in)

C. Mud Pits: Quantity _____ Average Width _____ (ft) Average Length _____ (ft)

Average Depth _____ (ft)

Describe proposed underground work, including reopening of old workings, advancement of adits or shafts, trenches, pits, cuts, rock dumps, or other types of disturbance, describe type, quantity and general dimensions:

Have not begun yet so I cannot answer. NA

- D. Other Disturbances (please describe):

NA - have not begun yet

- E. Indicate Chemicals and Fuels used or stored on site. List type, quantity and method to store.

None - only 1 man using hand tools

F. New Road(s): Length _____ (ft) Width _____ (ft)
Significantly Upgraded Road(s) Length _____ (ft) Width _____ (ft)

Are culverts or other crossings proposed? If so, please describe:

No

G. Total project area to be disturbed 20 (acres) maybe a half ($\frac{1}{2}$) acre, but $\frac{1}{4}$ acre for sure

H. Describe the equipment to be used for the prospecting operations:

rock hammer, pick ax, shovel, manual work

I. Describe and locate any structures to be constructed (i.e. stockpiles, ponds, impoundments):

only 3ft high corner markings to show claim is being used.

J. Describe anticipated relationship to surface water and groundwater (proximity to streams, penetration of ground water aquifers):

Not going to be near streams or groundwater

IV. OPERATION AND RECLAMATION MEASURES:

1. The Board suggests that a photographic record of the pre-prospecting and post-prospecting conditions be kept by the prospector. These photos should be taken from the same location and by the same method to clearly show the pre-prospecting condition of the land and the reclamation efforts. Upon completion of reclamation and request for bond or surety release, the Board may consider the photos as evidence of adequate reclamation, and thus, be able to act more quickly on the request for release.
2. Provide a description of the native vegetation of the area to be disturbed, including tree, shrub, and grass communities of the area. Color photographs, sufficient to adequately represent the ecology of the site and adequately labeled (including date, orientation and location), may be used in lieu of a written description. Based on the quality of the photographs, the Division may require additional detail.

Going to be above tree line only moving rocks with hand shovel, pick ax, & rock hammer.
Backfilling to cover my pits.

3. Describe the estimated topsoil depth and how topsoil will be salvaged, stockpiled and redistributed for the re-establishment of vegetation. Specify approximate topsoil redistribution depth:

Not going to dig too deep, ~~may~~
possibly 3-4ft into Mt. Artero, will pile topsoil if I come
upon it & redistribute it back into hole I dug after completing
(prospecting) ~~each~~ each day. Backfilling!
S.K.

4. Describe how drill holes will be plugged (refer to Rule 5.4 of the Rules for required abandonment procedures):

Not using drills or drill holes

5. Describe how portals, adits, shafts, ponds, excavations, or other disturbances will be reclaimed (refer to Rule 3 and Rule 5 for specific reclamation performance standards). You may wish to contact the Division for closure specifications.

Only 1 man - manually walking in with hand tools
backfilling holes I made.

6. Describe how roads will be reclaimed or returned to their pre-prospecting (or better) condition:

Not using roads =

7. List the seed mixture to be used in the re-establishment of vegetation. See the attached seed mixture calculation to obtain PLS/acre. For assistance with formulating seed mixtures and rates, contact the local NRCS if on private land, BLM/USFS if on public land or State Land Board if on state land.

A. Provide plant name and seeding rate

Plant Name	Seeding Rate (PLS/acre)
NA	
Will research & call	
proper bureau for	
plant species/seeds	
to redistribute	

B. Describe the method for seed bed preparation, and application method for grass/forb seeding:

NA - will abide by rules

V. TERMS AND CONDITIONS FOR PROSPECTING OPERATIONS:

1. Reclamation measures shall be fulfilled in a timely manner and completed within five (5) years of completion of prospecting activities.
2. The prospecting operations described in this Notice will be conducted in such a manner as to minimize surface disturbances. In addition to the measures required in Rule 5, precautions to be taken include:
 - A. Confinement of operations to areas near existing roads or trails, where practicable. Existing roads which are to remain as permanent roads after prospecting activities are completed shall be left in a condition equal to or better than the pre-prospecting condition;
 - B. Drilling shall be conducted in such a way as to prevent cuttings and fluids from directly entering any dry or flowing stream channel. Drill cuttings must be spread to a depth no greater than one-half (1/2) inch or buried in an approved disposal pit;

VIII. SIGNATURE REQUIREMENT

Please place your initials on the line provided:

SK

I hereby verify that the foregoing information is true and accurate and commit to the reclamation of the aforementioned prospecting site as required by the Colorado Mined Reclamation Act and the rules as specified in the Hard Rock/Metal Mining Rules and Regulations and this NOI form.

SK

I have enclosed the required permit fee.

SK

I authorize the Division to contact and copy the BLM and/or USFS on any correspondence related to the prospecting operation, if the prospecting operation is located on federal public land.

SK

I have also enclosed the appropriate reclamation surety amount or will post an amount as determined by the office, based on the projected costs of reclamation.

SK

I understand that I am not authorized to create any surface disturbance until the surety amount is posted and approved in writing from the Division of Reclamation, Mining and Safety.

SK

I accept and agree to comply with the foregoing terms and conditions and with all of the provisions of Rules 3 and 5, and C.R.S. 34-32-101.

SK

I hereby certify that concurrent with submittal of this NOI to the Division, I have sent notice to the Boards of County Commissioners in the Counties where the proposed activities will occur. This notice also indicated that non-confidential information regarding the proposed activities will be available for review at the Division's website.

This form has been approved by the Mined Land Reclamation Board pursuant to section 34-32-113, C.R.S., of the Mined Land Reclamation Act. Any alteration or modification of this form shall result in voiding any NOI issued on the altered or modified form and subject the operator to cease and desist orders and civil penalties for operating without a NOI pursuant to section 34-32-123, C.R.S.

I, the undersigned, being the NOI holder or the person authorized to sign on behalf of the NOI holder, declare that the information given in this NOI form is true and correct.

SIGNATURES MUST BE IN BLUE INK

Division of Reclamation, Mining, & Safety 1313 Sherman St. Room 215, Denver, CO, 80202
(303) 866-3567

L. The prospector is required to document that the NOI has been sent to the BLM or the USFS. Processing of the NOI will not begin until the prospector has submitted evidence acceptable to the Division that the NOI was sent to the BLM or USFS. Check one:

- ☒ Evidence of notification is attached to this NOI for BLM Land
☐ Evidence of notification is attached to this NOI for USFS Land.
☒ Other proof of notice is attached to this NOI

II. MAPS & DRAWINGS

Accurate topographic base map showing the location of the proposed project must be submitted with this notice. The prospector may submit a U.S.G.S. 7.5 minute quadrangle, or similar map of adequate scale that:

3. identifies the proposed prospecting site(s) or activity areas involving surface disturbance. Activity areas include all drill holes, mud pits, excavations, trenches, adits, shafts, tunnels, rock dumps, stockpiles, impoundments and prospecting roads, and
4. includes sufficient detail to identify and locate known prospecting features and facilities that may be affected and those that are not anticipated to be affected. This includes the location of all drill holes, mud pits, excavations, trenches, adits, shafts, tunnels, rock dumps, stockpiles, impoundments and prospecting roads. Color photographs, adequately labeled (including date, orientation and location), of the prospecting site may be used to fulfill this requirement if included with the NOI submittal.

III. PROJECT DESCRIPTION

7. Mineral(s) and/or Resource(s) being Investigated: Aqua marine, quartz crystal, topaz

8. Estimated dates of commencement and completion:

Commencement: June 2014

Completion: Sept 2014

9. Amount of material to be extracted, moved or proposed to be moved: Not sure yet but manually digging & doing

10. Identify the type or method of prospecting proposed and quantity (place an "X") this alone so not very much.

☒ only digging & removing rocks with hand tools, shovel, rock hammer, & pick ax.

11. Describe proposed surface excavation or other land disturbance, including roads, pits, trenches, waste piles, drill pads and collar areas of underground workings, ponds, etc...

Have not done any land disturbance as I have not yet begun.
I plan on beginning in June 2011, or sooner.
May create some small pits and move rocks off incline/decline ~~step~~.

12. **Proposed Disturbance** (approximate) Describe the proposed drilling to be conducted, including anticipated number of holes, diameter, depth, location, etc... Submit additional pages if necessary:

- A. Drill Pads: Quantity _____ Average Width _____ (ft) Average Length _____ (ft)
B. Drill Holes: Quantity _____ Depth _____ (ft) Diameter _____ (in)
C. Mud Pits: Quantity _____ Average Width _____ (ft) Average Length _____ (ft)
Average Depth _____ (ft)

Describe proposed underground work, including reopening of old workings, advancement of adits or shafts, trenches, pits, cuts, rock dumps, or other types of disturbance, describe type, quantity and general dimensions:

Have not begun yet so cannot properly answer.
May create ^{small} pits.

- F. Other Disturbances (please describe):

NA - have not begun yet

- G. Indicate Chemicals and Fuels used or stored on site. List type, quantity and method to store.

NA None - using manual hand tools

- F. New Road(s): Length _____ (ft) Width _____ (ft)
Significantly Upgraded Road(s) Length _____ (ft) Width _____ (ft)

Are culverts or other crossings proposed? If so, please describe: No

G. Total project area to be disturbed 720 (acres) *Since I am working alone and manual tools only, I would expect $(\frac{1}{4})$ acre - $(\frac{1}{2})$ acre total.*

K. Describe the equipment to be used for the prospecting operations:

Rock hammers, pick ax, shovel - manual tools only

L. Describe and locate any structures to be constructed (i.e. stockpiles, ponds, impoundments):

3ft pile of rocks to mark my claim and maybe small tailings pile.

M. Describe anticipated relationship to surface water and groundwater (proximity to streams, penetration of ground water aquifers):

NA - not going to be near streams/water

IV. OPERATION AND RECLAMATION MEASURES:

1. The Board suggests that a photographic record of the pre-prospecting and post-prospecting conditions be kept by the prospector. These photos should be taken from the same location and by the same method to clearly show the pre-prospecting condition of the land and the reclamation efforts. Upon completion of reclamation and request for bond or surety release, the Board may consider the photos as evidence of adequate reclamation, and thus, be able to act more quickly on the request for release.
2. Provide a description of the native vegetation of the area to be disturbed, including tree, shrub, and grass communities of the area. Color photographs, sufficient to adequately represent the ecology of the site and adequately labeled (including date, orientation and location), may be used in lieu of a written description. Based on the quality of the photographs, the Division may require additional detail.

Going to be above tree line only moving rocks with hand shovel, pick ax, and rock hammer. Backfilling to cover my pits.

8. Describe the estimated topsoil depth and how topsoil will be salvaged, stockpiled and redistributed for the re-establishment of vegetation. Specify approximate topsoil redistribution depth:

Not going to dig too deep, possibly 3-4ft into Mt. Antero. Will pile top soil if I come upon it & redistribute it back into hole/pit I dug after completing (prospecting) each day. Back Filling Pits!

9. Describe how drill holes will be plugged (refer to Rule 5.4 of the Rules for required abandonment procedures):

Not using drills or drill holes

10. Describe how portals, adits, shafts, ponds, excavations, or other disturbances will be reclaimed (refer to Rule 3 and Rule 5 for specific reclamation performance standards). You may wish to contact the Division for closure specifications.

Only 1 man (me) - manually walking in with hand tools backfilling holes/pits I created.

11. Describe how roads will be reclaimed or returned to their pre-prospecting (or better) condition:

Not using roads -

12. List the seed mixture to be used in the re-establishment of vegetation. See the attached seed mixture calculation to obtain PLS/acre. For assistance with formulating seed mixtures and rates, contact the local NRCS if on private land, BLM/USFS if on public land or State Land Board if on state land.

A. Provide plant name and seeding rate

Plant Name	Seeding Rate (PLS/acre)
Will research if any are common in location & contact proper bureau for plant species/seedling to redistribute.	

B. Describe the method for seed bed preparation, and application method for grass/forb seeding:

Will abide by rules

V. TERMS AND CONDITIONS FOR PROSPECTING OPERATIONS:

3. Reclamation measures shall be fulfilled in a timely manner and completed within five (5) years of completion of prospecting activities.
4. The prospecting operations described in this Notice will be conducted in such a manner as to minimize surface disturbances. In addition to the measures required in Rule 5, precautions to be taken include:
 - A. Confinement of operations to areas near existing roads or trails, where practicable. Existing roads which are to remain as permanent roads after prospecting activities are completed shall be left in a condition equal to or better than the pre-prospecting condition;
 - B. Drilling shall be conducted in such a way as to prevent cuttings and fluids from directly entering any dry or flowing stream channel. Drill cuttings must be spread to a depth no greater than one-half (1/2) inch or buried in an approved disposal pit;

VIII. SIGNATURE REQUIREMENT

Please place you initials on the line provided:

SK

I hereby verify that the foregoing information is true and accurate and commit to the reclamation of the aforementioned prospecting site as required by the Colorado Mined Reclamation Act and the rules as specified in the Hard Rock/Metal Mining Rules and Regulations and this NOI form.

SK

I have enclosed the required permit fee.

SK

I authorize the Division to contact and copy the BLM and/or USFS on any correspondence related to the prospecting operation, if the prospecting operation is located on federal public land.

SK

I have also enclosed the appropriate reclamation surety amount or will post an amount as determined by the office, based on the projected costs of reclamation.

SK

I understand that I am not authorized to create any surface disturbance until the surety amount is posted and approved in writing from the Division of Reclamation, Mining and Safety.

SK

I accept and agree to comply with the foregoing terms and conditions and with all of the provisions of Rules 3 and 5, and C.R.S. 34-32-101.

SK

I hereby certify that concurrent with submittal of this NOI to the Division, I have sent notice to the Boards of County Commissioners in the Counties where the proposed activities will occur. This notice also indicated that non-confidential information regarding the proposed activities will be available for review at the Division's website.

This form has been approved by the Mined Land Reclamation Board pursuant to section 34-32-113, C.R.S., of the Mined Land Reclamation Act. Any alteration or modification of this form shall result in voiding any NOI issued on the altered or modified form and subject the operator to cease and desist orders and civil penalties for operating without a NOI pursuant to section 34-32-123, C.R.S.

I, the undersigned, being the NOI holder or the person authorized to sign on behalf of the NOI holder, declare that the information given in this NOI form is true and correct.
