Re: Oldcastle SW Group dba United Companies of Mesa County, Virginia Acres, Permit No.M-1990-021, Preliminary Adequacy Review of Technical Revision No. 4 Application, TR-4.

Dear Mr. Burkey,

The Division of Reclamation, Mining and Safety (DRMS) has conducted the review of the application for a technical revision to the above referenced permit. The purpose of the technical revision is to revise the seed mix. A review of the application has revealed a few issue(s) or clarification(s) required to process the technical revision:

- 1) The technical revision cannot be approved unless the proposed seed mix is submitted to the DRMS for review. Please submit the proposed seed mix.

The technical revision cannot be approved until the issue(s) are adequately addressed. Please submit a response to the issues as soon as possible but no later than May 23, 2014, so the decision date of June 4, 2014 can be met. If your response, or a written request for an extension of the decision date, is not received by May 23, 2014 the request for the revision may be denied.

If you need additional information, please contact me at the Division of Reclamation, Mining and Safety, Grand Junction Field Office, 101 S. 3rd St., Suite 301, Grand Junction, Colorado 81501, telephone no. 970.241.2042.

Sincerely,

Travis Marshall
Environmental Protection Specialist
