**Re: Williams Fork Mines (Permit No. C-1981-044)
Technical Revision No. 36 (TR-36)
Permit Renewal (RN-6) and Mid-Term (MT-6) Updates and Revisions.**

Dear Mr. Velarde:

The Division of Reclamation, Mining and Safety hereby issues notice, in accordance with Title 34, Article 33, Section 116, Paragraph 4, of the Colorado Revised Statutes, that on May 12, 2014 an application to revise coal mining operations at the Williams Fork Mines was considered complete for the purposes of filing. The revision was submitted by Moffat County Mining, LLC. All review and comment periods as provided in the Act and the Regulations initiate from this date of filing.

TR-36 provides responses to adequacy review items identified during the review of the Williams Fork Mines application during Permit Renewal No. 6 and Mid-Term Review No. 6. The applicant is not proposing additional surface disturbance outside of the area currently approved for disturbance.

The underground coal mining operation is on land located approximately 7 miles Southwest of Craig, Colorado. The permit area is further described as follows:

All or portions of Sections 4, 5, 6 and 8, T5N, R91W; part of Section 1, T5N, R92W; and Sections 17, 19, 20, 21, 28, 29, 30, 31, 32 and 33, T6N, R91W; portions of Sections 25, 26, 35 and 36, T6n, R92W; 6th Prime Meridian.

The above-mentioned tracts of land are shown on the following USGS 7.5 minute Quadrangle map(s): Round Bottom, Castor Gulch.

Because the above referenced technical revision application would incorporate additional lands into the permit area or might otherwise alter previously approved permit conditions or mitigation measures, we are requesting your agency's evaluation of the proposal. Your comments and concerns relating to the adequacy of fish and wildlife resources information, the fish and wildlife plan, and the reclamation plan as it relates to fish and wildlife considerations, including potential impacts to threatened or endangered species, are requested. If wildlife habitat is the proposed postmining land use, we request your evaluation of proposed woody plant stocking levels, planting arrangements, and methods for mitigation of potential adverse impacts.

Pertinent portions of the permit application are available electronically on our web site: <http://mining.state.co.us/Reports/MiningData/Pages/ImagedDocumentData.aspx>. Documents can be sorted by name or by Section/Exhibit number. A user's guide for our imaging system is also available in pdf format at the same web address. Please advise us if you require additional information.

The applicant is required to publish notice in a local newspaper that this application has been deemed complete. At the time of publication of this notice, the applicant is additionally required to place a copy of this application at the Moffat County Clerk and Recorder, 221 W Victory Way, Craig, CO 81625, and at the Division office. For additional information or to provide written comments, contact the Division of Reclamation, Mining and Safety, Room 215, 1313 Sherman Street, Denver, Colorado 80203, (303) 866-3567. In order for us to comply with regulatory time frames, we request that comments be submitted within fifteen (15) days of this letter. If no comments are received by then, we will proceed on the assumption that you have no concerns with, or objections to, the applicant's proposal.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jared Ebert", with a stylized flourish at the end.
