**Re: Hazeltine Mine, DRMS Permit No. M-2004-031  
Technical Revision TR-03  
Preliminary Adequacy Review**

Dear Ms. Davis:

The Division of Reclamation, Mining and Safety (Division), has completed a preliminary review of TR-03, and has the following comments and questions.

1. Please commit to reporting the results of the Agridrain monitoring and maintenance plan to the Division each month. The Operator shall submit the previous month's monitoring data to the Division within the following month. Once a period of record has been established, the Operator may request a reduction in the reporting frequency.
2. Will the elevation of the staff gauge be surveyed once installed? Please commit to reporting the surface water elevation in feet above mean sea level.
3. Please commit to reporting maintenance that was performed each week to the Agridrain (i.e. cleaning of the screen during the Operator's monitoring inspection).
4. Please provide the anticipated date that the monitoring and maintenance plan will be initiated.
5. Please provide the anticipated date that construction of the revised inlet screen will be completed.

**The current decision deadline for TR-03 is June 16, 2014.** Please provide responses to the above comments soon enough for the Division to review the responses and complete a follow-up exchange of comments and responses prior to the decision deadline.

If you need additional information please contact me at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203, by telephone at 303-866-3567, extension 8131, or by email at [tyler.odonnell@state.co.us](mailto:tyler.odonnell@state.co.us).

Sincerely,

Tyler O'Donnell  
Environmental Protection Specialist

CC: Tom Kaldenbach, DRMS
