Re: 15 Road Gravel Pit, Permit No. M-2002-114, Technical Revision Approval, Revision No. TR-5

Dear Mr. Burkey:

On May 22, 2014 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on May 12, 2014, addressing the following:

- *Revise mining and reclamation plans to increase maximum allowed disturbance from 86 acres to 115 acres and increase the required reclamation bond to account for the additional reclamation liability.*

The terms of the Technical Revision No. 4 approved by the Division are hereby incorporated into Permit No. M-2002-114. All other conditions and requirements of Permit No. M-2002-114 remain in full force and effect.

The estimated financial warranty amount of \$854,778.00 exceeds the currently held amount of \$461,532.67. An additional financial warranty amount of \$393,245.33 is required to be placed with the Division before the technical revision is considered active and the required corrective action for the problem cited in the March 12, 2014 inspection report has been complied with. If you have any questions regarding the placement of the required additional financial warranty please contact Barbara Coria at 303.866.3567 extension 8148.

If you have any questions, please contact me at (970) 241-2042.

Sincerely,

Travis Marshall
