**Re: Lumsden Canyon Pit, Permit No. M-1983-216, Temporary Cessation Request,
Notification of Invalid Request.**

Dear Ms. Mascarenas,

The Division of Reclamation, Mining and Safety (DRMS) has reviewed the request for a Temporary Cessation status request for the above referenced 110 Construction Materials Reclamation Permit. The mine site was inspected on April 9, 2014 and was determined by DRMS staff to be an active site due to periodic removal of stockpiled material located within the permit area. Due to the active removal of material from the permit area the site does not meet the requirements of Rule 1.13.2 required to change the mine status to Temporary Cessation. Please send a withdraw letter to officially terminate the Temporary Cessation request.

If you need additional information, please contact me at the Division of Reclamation, Mining and Safety, Grand Junction Field Office, 101 S. 3rd St., Suite 301, Grand Junction, Colorado 81501, telephone no. 970.241.2042.

Sincerely,

Travis Marshall
Environmental Protection Specialist
