**Revision: MR-155**  
**Replace Monitoring Well DH-67blw**

Dear Sir or Madam:

The Division of Reclamation, Mining and Safety has received an application for the above referenced permitting action for the Bowie No. 2 Mine. The application was deemed complete on July 8, 2014.

Bowie Resources, LLC (BRL) is proposing to replace damaged monitoring well DH-67blw with a new well DH-67blw. The new well will be located on the existing drill site for the existing well, and the existing well will be sealed. The reclamation performance liability for the site will be increased for the reclamation costs associated with sealing the new well. The applicant is not proposing additional surface disturbance outside of the area currently approved for disturbance.

Permit Revision, Permit Renewal, Technical Revision, or Bond Release application materials are available for review at the Paonia Public Library, 2 3rd Street, Paonia, CO 81428. Minor Revision application materials are available for review at the Division's Denver office.

If you have any questions, please contact me.

Sincerely,
