NOTICE OF PROPOSED DECISION

The Colorado Division of Reclamation, Mining and Safety proposes to approve Technical Revision Application No. 53 (TR-53) for the Seneca II Mine (Permit No. C-1980-005), submitted by Seneca Coal Company, LLC. Technical Revision No. 53 requests the approval for final termination of the water monitoring program as described in the approved mining permit C-1980-005 for the Seneca II Mine. Seneca II Mine proposes to terminate monitoring of four ground water monitoring wells and three surface water monitoring sites.

The Seneca II Mine is a/an surface coal mine located in Routt County, approximately 9 miles SE of Hayden, Colorado. Coal interest is state, and the surface affected is state land. The permit area encompasses approximately 386.50 acres.

This proposed decision is based on a finding that the proposed operation will comply with all requirements of the Colorado Surface Coal Mining Reclamation Act, Section 34-33-101, *et seq.*, C.R.S., and the regulations promulgated thereunder.

Copies of the proposed decision, including stipulations, are on file for public inspection at the Colorado Division of Reclamation, Mining and Safety, Room 215, Centennial Building, 1313 Sherman Street, Denver, Colorado 80203. Persons with an interest that may be adversely affected by the proposed decision may request a formal hearing before the Mined Land Reclamation Board on the proposed decision. Such request must be made within ten (10) days of the initial publication of this notice, must be in writing, and must state with reasonable specificity the reasons for the request and the objections to the proposed decision.
