**GRAND JUNCTION FIELD OFFICE
DIVISION OF
RECLAMATION MINING & SAFETY**

Dear Mr. Daehling:

During the August 28, 2014 site visit by the White River Field Office's Mining Engineer, Paul Daggett, it was noted the pipelines from the newly completed water wells WSW3 and WSW4 were constructed outside of the approved pipeline route. A certified letter for a notice of noncompliance was sent to Natural Soda Inc. on September 9, 2014 and received by Natural Soda Inc. on September 10, 2014. The notice of noncompliance required the reclamation of the pipeline disturbance area, including seeding, to be completed within 30 days of the receipt of the letter. Re-contouring and topsoil placement of the disturbed area were completed by October 2, 2014 and inspected by Paul Daggett on October 6, 2014. Drill seeding, seed tag submittal, erosional matting and wattle placement were completed by October 6, 2014. Paul Daggett inspected the site October 21, 2014 to verify completion of the required work. I have determined Natural Soda Inc. completed the requirements of the September 9, 2014 letter in a timely manner and the notice of noncompliance has been corrected.

If there any questions, please contact Paul Daggett Mining Engineer.

Sincerely,

Kent E. Walter
Field Manager
