Preliminary Adequacy Review**

Dear Mr. Carlson:

The Division of Reclamation, Mining and Safety (DRMS) received Technical Revision No. 4 (TR-04) for the above referenced site on October 21, 2014. The decision date for TR-04 is November 20, 2014. DRMS has reviewed TR-04 and has the following comments:

- 1) DRMS did not receive the enclosed items with the Technical Revision submittal, please provided DRMS with the design drawings, design report and the geotechnical report.

This concludes the DRMS's preliminary adequacy review of this Technical Revision. Please remember that the decision date for TR-04 is November 20, 2014. As previously mentioned, if you are unable to provide satisfactory responses to any inadequacies prior to this date, **it will be your responsibility to request an extension of time to allow for continued review of this Technical Revision.** If there are still unresolved issues when the decision date arrives and no extension has been requested, the Technical Revision will be denied.
