Permit Amendment Application AM-02, Approval with Condition**

Mr. Pfister:

On June 5, 2013 the Division of Reclamation, Mining and Safety approved Amendment AM-02, with the following condition:

New operations proposed in Amendment AM-02 shall not commence until the operator obtains a Gravel Pit Water Well Permit.

The materials approved in the partial approval are hereby incorporated into Permit No. M-1977-300. All other conditions and requirements of Permit No. M-1977-300 remain in full force and effect.

The required additional financial warranty associated with the partial approval of AM-04 has been determined to be \$4,000. **Please be advised that you may not commence operations covered by the approval of AM-02 until the additional financial warranty has been submitted and accepted by our office. You will be notified in writing when it is accepted.**

If you have any questions, please contact me.

Sincerely,
