**Re: Rocky Ford South Pit, Permit No. M-1977-222, Notice of Administrative Revision No. AD-01**

Ms. Bellantoni,

On November 13, 2014 the Division of Reclamation, Mining and Safety (Division) approved an Administrative Revision (AD-01) to this permit file addressing the following:

*The permit area should be 255.28 acres and not 147.40 acres (as indicated in the permit system). Changes in permit acreage had not been accurately recorded in the permit system for this file.*

*The Operator had the site re-surveyed in October 2014 (in conjunction with a thorough investigation of the permit history in DRMS records) and determined the actual permit area to be 255.28 acres in size.*

*In addition, the maximum allowed disturbed acreage for this site has been updated to 30 acres in the permit system.*

The terms of the Administrative Revision No. AD-01 approved by the Division are hereby incorporated into Permit No. M-1977-222. All other conditions and requirements of Permit No. M-1977-222 remain in full force and effect.
