Technical Revision Approval, Revision No. TR-1**

Dear Mr. Ary:

On November 17, 2014 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on September 18, 2014, addressing the following:

- 1) Revise east boundary setback from 25 feet to 5 feet from the property boundary fence.*
- 2) Submit a Weed Management Plan.*

The terms of the Technical Revision No. 1 approved by the Division are hereby incorporated into Permit No. M-2000-151. All other conditions and requirements of Permit No. M-2000-151 remain in full force and effect.

The performance bond currently held by the Division is \$64,540.00. The Division has reviewed this change for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability. Therefore, the current warranty remains adequate.
