**Re: Dellacroce Pit, Permit No. M-1993-050;  
Acreage Reduction (AR-01) Approval, Revision No. AR-1**

Dear Mr. Kraig:

On December 2, 2014, the Colorado Division of Reclamation, Mining and Safety approved your request for release of a portion of the permit area from further reclamation responsibility.

The permit area was reduced to 130.99 acres, through the release of 15.01 acres in this permit action. Because the permit is not totally released, you are still liable for filing annual reports and fees.

Please be aware that after an Acreage Reduction has been approved, a Technical Revision (see enclosed) will need to be submitted to update the permit mining and reclamation plans, and the permit boundary. Please submit this Technical Revision request under separate cover along with the required revision fee of \$216 within 60 days.

If you have any questions, please contact me (303-866-3567 ext. 8169).

Sincerely,

Timothy A. Cazier, P.E.  
Environmental Protection Specialist
