RE: M-1979-166 – BENNETT'S GRAVEL PIT

Dear Mr. Lyman:

After receiving your email dated today concerning annual report compliance, we reviewed the DRMS permit and Laserfiche systems and confirm that the Annual Fee, Report, and Map fee and documents for your permit site were received on August 29, 2014. Therefore, at your request, the December 19, 2014 reminder letter sent in error, will be removed from the DRMS Laserfiche system.

We offer our apologies and ask that you contact us if you have any comments or questions concerning this issue.

Thank you.

Sincerely,

Michelle S. Ramirez
Program Assistant

Michelle

Last week I received notice from the Division for the Bennett's Gravel Pit, Permit M-1979-166, informing Elam Construction the annual fee and report was past due. The annual fee and report for this permit was due on September 4, 2014.

First, my records show the fee and report were submitted the end of August and received by the Division on August 29, 2014 as evidenced by certified mail receipt. I also looked at the Division's Laserfiche website and confirmed the Division's receipt of the annual report and fee as this file was on the website with the attached receipt for the fee (See attached file). Please make necessary corrections to your data base to reflect the submittal of the fee and report. I would also request the Division remove from the permit file any reference to an Enforcement Action regarding the 2014 annual fee and report.

If you have any questions or require any additional documentation, please don't hesitate to contact me.

Thanks

Gayle Lyman
