**RE: Hydrologic Monitoring, Analytical Lab Reports,  
Pride of the West Mill, Permit No. M-1984-049**

Dear Mr. Guyer:

The Division is reviewing the hydrologic status of the permit area and surrounding lands. The Division is in receipt of the hydrologic data tables, constructed by the Operator and submitted with the annual reports dated June 25, 2012, June 28, 2013, and June 20, 2014. The hydrologic data tables display the results of the analytical lab reports for the quarterly water samples taken by the Operator. However, a copy of the analytical lab reports was not provided with the data tables.

Please provide a copy of all analytical lab reports for the water samples taken during 2011, 2012, 2013 and 2014, as reported on the hydrologic data tables submitted with the annual reports dated June 25, 2012, June 28, 2013 and June 20, 2014. Please ensure the Division has received the analytical lab reports within 30 days of this correspondence, due February 16, 2015.

Please contact me at the Division's office in Durango at 691 County Road 233, Suite A-2, Durango, Colorado 81301, phone (970) 247-5469, email [wally.erickson@state.co.us](mailto:wally.erickson@state.co.us), if you have any questions.

Sincerely,

Wallace H. Erickson
