RE: South Asphalt Plant; DRMS File No. M-2009-004;  
Technical Revision (TR-01) Approval

Dear Mr. Smith,

On January 27, 2015 the Division of Reclamation, Mining and Safety, received your final adequacy response via email and approved the Technical Revision application submitted to the Division on December 2, 2014, addressing the following:

*Request to import inert material for backfill.*

The terms of the Technical Revision No. 1 approved by the Division are hereby incorporated into Permit No. M-2009-004.

The performance bond currently held by the Division is \$ \$59,055.00. The Division has reviewed this change for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability.

If you have any questions, please contact me at (303)866-3567 x8169.

Sincerely,

Timothy A. Cazier, P.E.  
Environmental Protection Specialist
