Re: Request for extension on Technical Revision  
Midwestern Farms Pit – Permit # M-1993-059

Ms. Eschberger,

Eastern Colorado Aggregates, LLLP is requesting a 6 month extension regarding the Technical Revision (TR-03) adequacy review. Since the meeting between the landowner, the Colorado Parks & Wildlife and the DRMS regarding part or all of the land included in the permitted area, ECA wants to make a final plan with the other parties regarding the closure of the mining operations. The increase in the bond has been posted but we need some additional time to evaluate the review you sent us on August 6, 2014 and how it pertains to the situation with the landowner and the Colorado Parks & Wildlife. The 6 month extension would make the new deadline July 30, 2015.

Please contact me at 719-489-3385 with any questions or concerns.  
Respectfully,

Eastern Colorado Aggregates, L.L.L.P.
