Re: Notice of Intent to Conduct Prospecting Application, Revenue Mine 2015 Project,  
File No. P-2015-003, Notice of Receipt of Application

Dear Ms. Stoopnikoff,

On February 5, 2015, the Division of Reclamation, Mining and Safety (Division) received your Notice of Intent to Conduct Prospecting Operations (NOI). The Division posted the non-confidential Form 2 on the Division website on February 9, 2015 in accordance with the requirements of Rule 5.1.3. Any public comment or request for disclosure of information designated as confidential regarding the NOI must be received by the Division no later than ten (10) working days after the notice was posted on the Division website (February 24, 2015).

The Division will begin its review of the NOI and will contact you within 20 working days of the posting date regarding any deficiencies. We will also check to ensure that the NOI application fee has been provided and applied toward the processing of this NOI.

The Division understands that this NOI does not propose any new disturbance, but is solely to cover the unreclaimed recent disturbance of the sites by a different operator. If you wish to perform any additional disturbance in the future, a modification to this NOI should be submitted.

The NOI submittal did not include a prospecting financial warranty (aka "bond"). As you know, the Division calculated the amount of warranty required for reclaiming disturbances related to this project, and estimated the amount to be \$7,826.61. Various types of warranties are accepted by the Division; you are encouraged to check our website (<http://mining.state.co.us>) and choose one of the PDF bond forms whose name includes the words "One Site Prospecting Financial Warranty..." as well as the "Affidavit of Authority" PDF form. The bond and the pertinent forms should be submitted to Barbara Coria in our Denver office.

Please note that file number P-2015-003 has been assigned to this project; this number should appear on all correspondence and bond documents pertaining to this project.
