**Re:   Bowie No. 2 Mine (Permit No. C-1996-083)**  
**Revision: TR-99**  
**Revise Hydrologic Monitoring Program.**

Dear Sir or Madam:

The Division of Reclamation, Mining and Safety has received an application for the above referenced permitting action for the Bowie No. 2 Mine. The application was deemed complete on March 4, 2015.

Technical Revision No. 99 proposes to revise the currently approved hydrologic monitoring plan by incorporating changes that are a result of a 2014 ground water monitoring well rehabilitation project. The revision also includes a justification for the removal of a requirement to construct ground water point of compliance wells. The applicant is not proposing additional surface disturbance outside of the area currently approved for disturbance.

Permit Revision (PR), Permit Renewal (RN), or Technical Revision (TR) application materials are available for review at the Paonia Public Library, 2 3rd Street, Paonia, CO 81428. Minor Revision (MR) and Surety Release (SL) application materials are available for review at the Division's Denver office.

If you have any questions, please contact me.

Sincerely,
