Re: File No. M-1978-210, Geisert Sand and Gravel Pit – 2015 Annual Report

Dear DRMS:

The 2015 annual report form for Weld County's Geisert Sand and Gravel Pit is attached. During the previous year, the pits have been dewatered and mining activities continued through approximately May. Reclamation activities including restoring pit slopes, grading, and seeding were completed in the last report cycle. Weld County also applied for an augmentation plan with the Water Court to cover evaporative losses in the unlined portions of the permit area. Total area disturbed is approximately 98 acres with no new acreage disturbed.

Weld County anticipates the sale of the gravel pit for water storage in 2015. The new owner will likely install infrastructure such as a pump station and intake station to fill and empty the pits for water storage uses..

Please call with any questions.

Sincerely,

Clay Kimmi, P.E., CFM

3. **ASSOCIATED MAP as required by rule**

If you have requested reclamation responsibility release from the Division of Reclamation, Mining and Safety (the "Division") but your permit is not released by the anniversary date listed below, the Annual Fee MUST be paid.
