**Re: West Elk Mine (Permit No. C-1980-007)
Technical Revision Application No. 137 (TR-137)
B Seam Longwall Panels Initial Development**

Dear Mr. Boehms:

The Division of Reclamation, Mining and Safety hereby issues notice, in accordance with Title 34, Article 33, Section 118, Paragraph 3, of the Colorado Revised Statutes, that on May 18, 2015, an application to revise coal mining operations at the West Elk Mine was considered complete for the purposes of filing. All review and comment periods as provided in the Act and the Regulations initiate from this date of filing.

The Mountain Coal Company, LLC has submitted a Technical Revision to the West Elk Mine's Permit. The revision proposes new development mining in the currently leased B-Seam. The proposed longwall panel development is south of the old B-Seam panels and directly under the currently approved E-Seam panels. There are no proposed changes to the mine's permit area, affected area or disturbed area as a result of this revision. There will be no change in the mine's reclamation liability as a result of the changes proposed in this revision. The applicant is not proposing additional surface disturbance outside of the area currently approved for disturbance.

The underground coal mining operation is on land located approximately 9 miles East of Paonia, Colorado. The permit area is further described as follows:

All or portions of: Sections 9 through 36 (inclusive), Township 13 South, Range 90 West; Sections 23 through 26 (inclusive), Township 13 South, Range 91 West; and Sections 1, 2, 3, 4, 8, 9, 10, 11, and 12, Township 14 South, Range 90 West; all of the 6th Principal Meridian. Located in Gunnison and Delta Counties

The above-mentioned tracts of land are shown on the following USGS 7.5 minute Quadrangle map(s): Somerset.

The Division has interpreted 30 CFR 746.18 to determine that this application as submitted does not constitute a Mining Plan Action. If the proposal is significantly changed during our review process, we will consult with you on whether a Mining Plan Action should be initiated and direct the applicant to send the revision application materials to your office for review as necessary.

Sincerely,

A handwritten signature in blue ink, consisting of a stylized 'J' followed by 'R. Stark'.
