Re: Southfield Mine (Permit No. C-1981-014)
Revision: TR-46
Relocation of MW-NW Monitor Well .

Dear Ms. Gallagher:

The Division of Reclamation, Mining and Safety has received an application for the above referenced permitting action for the Southfield Mine. The application was deemed complete on May 28, 2015.

TR46 seeks to abate NOV CV-2013-002, as well as to address issues raised during the review of TR43. Specifically, TR46 proposes a new monitoring well, MWNW-2, to replace the existing damaged well, MW-NW. The proposed location, drilling procedure and construction technique of MWNW-2 are discussed. The applicant is proposing additional surface disturbance outside of the area currently approved for disturbance.

Permit Revision (PR), Permit Renewal (RN), or Technical Revision (TR) application materials are available for review at the Fremont County Clerk and Recorder, 615 Macon Avenue, Room B-5, Cañon City, CO 81212 and at the Division's Denver office. Minor Revision (MR) and Surety Release (SL) application materials are available for review at the Division's Denver office.

If you have any questions, please contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Leigh Simmons".
