Notice of Proposed Decision

The Colorado Division of Reclamation, Mining and Safety has issued a proposed decision to approve Bond Release Application No. 6 (SL-6) for the West Elk Mine, Permit No. C-1980-007. The underground operation is operated by Mountain Coal Company, LLC under the provisions of the Colorado Surface Coal Mining Reclamation Act of 1979. The bond release application was submitted by Mountain Coal Company, LLC on December 3, 2013. The Mountain Coal Company, LLC has submitted an application for a Phase III Bond Release for the West Elk Mine. A Phase III Bond Release is a final bond release and termination of the Division's jurisdiction for the areas requested. The proposed release is for the Lone Pine area, the Thermal Event area and the West Point area. The proposed release areas cover approximately 24.2 acres. Since this is a bond release, there will be a decrease in the mine's reclamation liability. The amount of the liability release will be determined following an application review and the bond release inspection. The affected area is located in Delta, Gunnison County, approximately 9 miles East of Paonia, Colorado.

Copies of the proposed decision are available for review at the Colorado Division of Reclamation, Mining and Safety office, 1313 Sherman Street, Room 215, Denver, Colorado 80203, and on the Division's website at

<http://mining.state.co.us/Reports/MiningData/Pages/ImagedDocumentData.aspx>. A user's guide for our document imaging system is also available in pdf format at the same web address.

Any person who has an interest which is or may be adversely affected may request an adjudicatory hearing regarding this proposed decision. Requests for a hearing must be made in writing within thirty (30) days of the first publication of this notice, and shall state with reasonable specificity the reasons for the request and objections to the proposed decision.
