**Re: Colowyo Coal Mine (Permit No. C-1981-019)  
Technical Revision No. 106 (TR-106)  
Collom Access/Haul Road Realignment**

Dear Sir or Madam:

The Division of Reclamation, Mining and Safety hereby issues notice, in accordance with Title 34, Article 33, Section 116, Paragraph 4, of the Colorado Revised Statutes, that on July 3, 2015 an application to revise coal mining operations at the Colowyo Coal Mine was considered complete for the purposes of filing. The revision was submitted by Colowyo Coal Company L.P.. All review and comment periods as provided in the Act and the Regulations initiate from this date of filing.

If implemented, TR-106 will realign the access and haul road for the Collom project. The applicant is proposing additional surface disturbance outside of the area currently approved for disturbance.

The surface coal mining operation is on land located approximately 28 miles South of Craig, Colorado. The permit area is further described as follows:

All or portions of Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 28, 29, and 30 in Township 3 North, Range 93 West; Sections 7, 13, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 26, 27, 28, 29, 30, 31, 32, 33, and 34 in Township 4 North, Range 93 West; Sections 1, 2, 3, 10, 11, 12, 13, 14, 15, 22, and 23 in Township 3 North, Range 94 West; and Sections 12, 13, 23, 24, 25, 26, 27, 34, 35, and 36 in Township 4 North, Range 94 West (all in 6th Prime Meridian).

The above-mentioned tracts of land are shown on the following USGS 7.5 minute Quadrangle map(s): Easton Gulch, Axial, Devils Hole Gulch, Ninemile Gap.

Because the above referenced technical revision application may incorporate additional lands into the permit area or might otherwise alter previously approved permit conditions or mitigation measures, the Division is coordinating with the Office of Surface Mining on evaluation of the potential for impacts to threatened or endangered species of plants or animals, or wildlife species otherwise protected by federal law. A copy of the permit section addressing potential effects of the operation to threatened and endangered (T&E) species has been forwarded to the Office of Surface Mining. The OSM will prepare any biological assessment necessary for approval based on the information provided in the application, and OSM will coordinate with your office as necessary. This coordination is required to ensure mitigation of potential impacts to federally protected wildlife species.

The applicant is required to publish notice in the *Craig Daily Press* that this application has been deemed complete. At the time of publication of this notice, the applicant is additionally required to place a copy of this application at the Moffat County Clerk and Recorder, 221 W Victory Way, Craig, CO 81625, and at the Division office. For additional information or to provide written comments, contact the Division of Reclamation, Mining and Safety, Room 215, 1313 Sherman Street, Denver, Colorado 80203, (303) 866-3567. In order for us to comply with regulatory time frames, we request that comments be submitted within ten (10) days of this letter.

Please contact me at the number above if you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Robert D. Zuber".
