

Michael Cunningham

DRMS

6-22-15

Michael,

Enclosed are copies of the Mining Plan and Reclamation Plan maps. Please look them over for being up to Division standards. And let me know if they are good to go.

I have all the remaining articles of the adequacy review for DRMS File # M-1997-065; amendment No. 2, dated May 13, 2015, ready to submit except structure agreements from CDOT and the Poudre Valley Canal. These remaining items will be somewhat time consuming but I expect to have them in hand within 30 days.

I have requested a 60 day extension to the June 29, 2015 decision date. I sent this by email on June 18, 2015.

Jim Striggow

President – Stone Wholesale, Inc.

A handwritten signature in blue ink, appearing to read 'Jim Striggow', with a long horizontal stroke extending to the right.
