Re: Bowie No. 2 Mine (Permit No. C-1996-083)
Revision: TR-104
Stability of Drill Sites

Dear Sir or Madam:

The Division of Reclamation, Mining and Safety has received an application for the above referenced permitting action for the Bowie No. 2 Mine. The application was deemed complete on August 11, 2015.

Technical Revision No. 104 proposes to revise permit application pages 2.05-45i through 2.05-45x to include a list of drill sites that are stable based on the criteria approved in permit application package C-1996-083, page 2.05-43i. A stable drill site is one in which sediment control measures are no longer needed. The applicant is not proposing additional surface disturbance outside of the area currently approved for disturbance.

Permit Revision (PR), Permit Renewal (RN), or Technical Revision (TR) application materials are available for review at the Paonia Public Library, 2 3rd Street, Paonia, CO 81428 and at the Division's Denver office. Minor Revision (MR) and Surety Release (SL) application materials are available for review at the Division's Denver office.

If you have any questions, please contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jason D. Musick", with a stylized, flowing script.
