**Re: Dahlia North Resources Pit, DRMS Permit No. M-1994-093
Technical Revision No. 4 (TR-04)
Preliminary Adequacy Review**

Dear Ms. Davis:

The Division of Reclamation, Mining and Safety (Division) received Technical Revision No. 4 (TR-04) for the above referenced site on August 17, 2015. The decision date for TR-04 is September 16, 2015. The Division has reviewed TR-04 and has the following comments and questions:

- 1) How many times a year will the site be mowed to control the spread of noxious weed? The Division would recommend mowing the site a few times a year during the growing season to prevent the growth of noxious weeds.

This concludes the Division's preliminary adequacy review of TR-04. This letter shall not be construed to mean that there are no other technical deficiencies in your submittal. Please remember that the decision date for TR-04 is September 16, 2015. At this time, if you are unable to provide satisfactory responses to any inadequacies prior to this date, **it will be your responsibility to request an extension of time to allow for continued review of this Technical Revision.** If there are still unresolved issues when the decision date arrives and no extension has been requested, TR-04 will be denied.

If you need additional information please contact me at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203, by telephone at 303-866-3567, extension 8131, or by email at Tyler.ODonnell@state.co.us.

Sincerely,

Tyler O'Donnell
Environmental Protection Specialist
