Cc: "Mitchell - DNR, Stephanie" <stephanie.mitchell@state.co.us>, Nicolas Sandoval <nsandova@blm.gov>

Greeting Jennifer!

So this disturbance is not associate with any permit for us or you I take it. I am on the road and having connectivity issues with our base systems. For us, we will need to do an enforcement action for mining without a permit. Part of that enforcement will be the requirement of a permit from us and of course a bond. The process includes notification to the landowner obviously you all. I assume he has ceased activities.

We will need to come do an inspection to start the enforcement process. This will be a good time for you to meet our newest EPS Amy Yeldell. I have cc'd her this response. Amy is taking over the northern and upper Colorado river counties from Stephanie. We are very busy the next 2 to 3 weeks however. So what's your timeline?

Russ

John Raftopoulos has severed federal minerals without a permit from BLM or DRMS. Attached is the map with the approximate quantity and some photos. We will need at a minimum payment of royalties and a reclamation bond. How do you proceed with mineral material trespasses? Our field manager wants to resolve administratively as opposed to criminal.

Thanks
