**Re: Dahlia North Resources Pit, DRMS Permit No. M-1994-093
Technical Revision No. 4 (TR-04)
Second Adequacy Review**

Dear Ms. Davis:

The Division of Reclamation, Mining and Safety (Division) received Technical Revision No. 4 (TR-04) for the above referenced site on August 17, 2015. The decision date for TR-04 is September 16, 2015. On September 8, 2015, the Division received your responses to the adequacy review letter and has the follow up comments and questions:

- 1) Please commit to mowing all noxious weeds at a minimum of once in the spring and once in the fall. Please commit to mowing noxious weeds prior to seedset, during the spring and fall, spring mowing must occur prior to June 30th of each year.

This concludes the Division's adequacy review of TR-04. This letter shall not be construed to mean that there are no other technical deficiencies in your submittal. Please remember that the decision date for TR-04 is September 16, 2015. At this time, if you are unable to provide satisfactory responses to any inadequacies prior to this date, **it will be your responsibility to request an extension of time to allow for continued review of this Technical Revision.** If there are still unresolved issues when the decision date arrives and no extension has been requested, TR-04 will be denied.

If you need additional information please contact me at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203, by telephone at 303-866-3567, extension 8131, or by email at Tyler.ODonnell@state.co.us.

Sincerely,

Tyler O'Donnell
Environmental Protection Specialist
