To: TOM SMITH &lt;Tom@rmmaterials.com&gt;

Tom,

The Division hereby grants your request for an extension to the decision date to October 30, 2015. For the record, the original decision date was September 30th. I had erroneously thought my internal review deadline (which was last week) was the decision date.

Tim,

Please extend the decision date for the TR at Red Canyon until Oct 30, 2015.

Thanks,

Tom

Tom,

I talked with Rob Mangone late yesterday (Thursday) about Ken Klco's stability analysis and the August 18, blast monitoring adventure. He asked that I email you and copy him on the email.

First, do you have any data from the blast monitoring, either from your seismograph and/or Buckley's. If you could send me copies for my report, I'd appreciate it.

Second, we do have comments on Mr. Klco's analysis. I will attempt to get them finalized today and emailed/mailed to you and Rob. However, we're past the decision date (as I was in the field the first 3 days of the week and HR/accounting is not letting us use our part time/temp geologic engineer for some reason - so we're running behind. If you can email/send a request for extension, say 3 or 4 weeks (which should give Ken ample time to respond), we will accept the request.

As always, if you have questions, please give me a call or email me.

Tim Cazier, P.E.
