**Re: Foidel Creek Mine (Permit No. C-1982-056)
Minor Revision No. 290 (MR- 290)
CRDA Soil Stockpile Relocation (MR15-290)**

Dear Mr. Nettleton:

We have received your application for a minor revision to your permit to conduct coal mining in Colorado. Our initial review indicates that all preliminary items required by Rule 2.08.4(5) have not been submitted. Thus, your application is incomplete for the purposes of filing as of October 9, 2015.

1. The application form requests to increase the disturbed area by 5.2 acres. Please submit a revised Map 23c that depicts the location of this area.
2. The application indicates a bond increase is not necessary. However, it appears the 5.2 acre increase in disturbance is proposed within a previously disturbed and reclaimed area and is not accounted for in the current reclamation liability. Please submit a reclamation cost estimate to reclaim the 5.2 acres of disturbance.

In accordance with Rule 2.07.3(1), you have the opportunity to amend, review, or otherwise make your application complete.

If you have any questions, please contact me.

Sincerely,
