***RE: Gardner Gravel Pit, Permit No. M-1979-034, Inspection Problem Abated***

Dear Mr. Redmond

On August 6, 2015 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Several issues were noted as problems with corrective actions and dates. Problem 2 (two), identified in the inspection report, documented sediment control as a problem for erosion along the access road. On October 23, 2015 the Division received photo documentation via email that the ditches had been repaired and rock check dams had been installed to prevent future damage. This satisfies the corrective actions for Problem 2 (two) and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell, at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

**Amy Yeldell**
