RE: Bear River Sand and Gravel, Permit No. M-1986-040, Inspection Problem Abated

Dear Mr. Brown:

On August 5, 2015 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Revegetation was noted as problem for the presence of state-listed noxious weeds. Corrective actions required the operator to implement a weed control plan and the plan shall be submitted in the form of a Technical Revision to the Reclamation Plan. On October 28, 2015 the Division received a Technical Revision Request from the operator. A decision for the technical revision request will be sent under separate cover.

All problems identified in the August 5, 2015 inspection report have been abated.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell, at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,
