Re: Sheehan Pit, File No. M-2007-058, Receipt of Construction Material Limited Impact (110) Reclamation Permit Application Package

Dear Mr. Corson:

On Monday, November 16, 2015, the Division of Reclamation, Mining and Safety received the Construction Material Limited Impact (110) Reclamation Permit Application package for the Sheehan Pit, File No. M-2007-058. A preliminary review of the information received determined that the following items must be received before the Division can consider the application filed and technical review can begin:

1.6.2 ADDENDUM 1 - Notice Requirements - Affidavit of Posting Notice

- ☐ (1) (b) Prior to filing the application, post notices (signs) at the location of the proposed mine site, as required by the Office, of sufficient size and number to clearly identify the site as the location of a proposed mining operation giving name, address, and phone number of the Applicant, and stating that (name of Applicant) has applied for a mining permit with the Colorado Mined Land Reclamation Board. Anyone wishing to comment on the application may view the application at the County Clerk's or Recorder's office and should send comments prior to the end of the public comment period to the Colorado Mined Land Reclamation Office, at the address given on the cover of these Rules and Regulations. Any class of Limited Impact 110 or Special 111 operation need only post notice (sign) at the location of the proposed access to the site. After having posted such notice (sign), failure by an Applicant to maintain such notice shall not constitute just cause to deny approval of the application. At the time the application is filed with the Office, the Applicant shall provide a signed affidavit that such notice (sign) was posted according to the provisions of this Rule.

Your application will not be considered filed until the information listed above is received and found sufficient to begin our review. It is recommended that you send the Division a copy of the notice prior to any publication to review for errors. The final date for receiving comments is ten (10) days after the date of publication or the next regular business day.

Please note that according to the board order the permit must be approved by December 21, 2015 which is earlier than the statutory requirements. Therefore you must provide the required documentation by **Tuesday, December 01, 2015**.

This letter shall not be construed to mean that there are no other technical deficiencies in your application. The Division will review your application to determine whether it is adequate to meet the requirements of the Act after submittal of all required items.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us
