Oak Creek, CO 80467

**Re: Foidel Creek Mine (Permit No. C-1982-056)**  
**Minor Revision No. 291 (MR- 291)**  
**13-Left Outby Utility Borehole.**

Dear Mr. Nettleton:

We have received your application for a minor revision to your permit to conduct coal mining in Colorado. Our initial review indicates that all preliminary items required by Rule 2.08.4(5) have not been submitted. Thus, your application is incomplete for the purposes of filing as of November 23, 2015.

In order to make the MR291 application complete, please submit the following:

- 1.) The results of the cultural resource survey were not included as a revision to Exhibit T as the proposed revised page 2.04-9.1 indicates. Please submit the results of the cultural resource survey. If the survey finds that there are resources listed or eligible to be listed on the National Register of Historic Places within the proposed affected area, sections 2.04.4 and 2.05.6(4) of the permit will need to be updated. If necessary, section 2.04.4 of the permit will need to be updated to list/identify that cultural resources are located within the proposed affected area. Also if necessary, section 2.05.6(4) of the permit will need to be updated to describe the measures to be used to minimize or prevent impacts to the cultural resources identified.
- 2.) Please submit a revised Map 29, Reclamation Plan Map to account for the disturbance associated with this revision.
- 3.) Please revise section 2.05.4 of the permit to update the reclamation plan to account for the

disturbance associated with MR291. Please include the information/material required by Rule 2.05.4.

In accordance with Rule 2.07.3(1), you have the opportunity to amend, review, or otherwise make your application complete.

If you have any questions, please contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jared Ebert", with a stylized flourish at the end.
